

KONVOX®

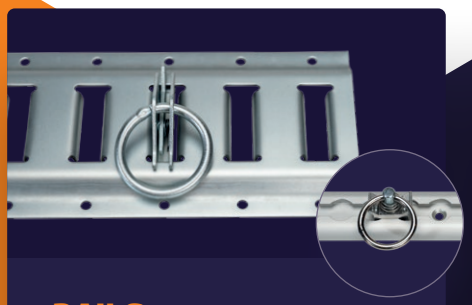

KONVOX MODULOAD SECURITY FOR EVERY LOAD

MEMBER OF THE BERDAL FAMILY

THE MODULAR CARGO SECURING SYSTEM
FOR PROFESSIONALS AND DIY ENTHUSIASTS

As a wholesaler or retailer, you want to provide your customers with the right cargo securing solution quickly. A fragmented product range makes that choice more difficult, while demand for flexible and reliable solutions continues to grow.

Moduload is a scalable cargo securing system that brings structure to your shelf. One well-designed product range that allows professionals and DIY enthusiasts to secure their cargo easily and safely, while evolving with the needs of both customers and the store.

RAILS

L-track and E-track rails in various lengths form the basis of the system.

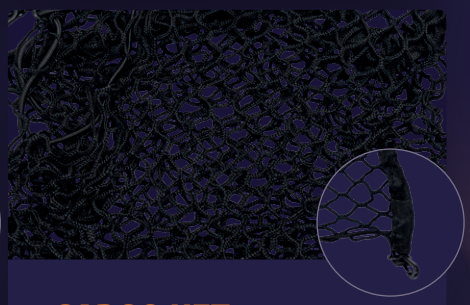

LASHING STRAPS

Click easily into the rails and create instant, secure anchoring points.

CARGO BAR

An adjustable cargo bar allows loads of different sizes to be secured easily.

CARGO NET

Provides additional security for loose or lightweight cargo and prevents shifting.

ANCHORING RING

A strong and flexible anchoring point that clicks directly into the rail or the mounting point.

ACCESSORIES

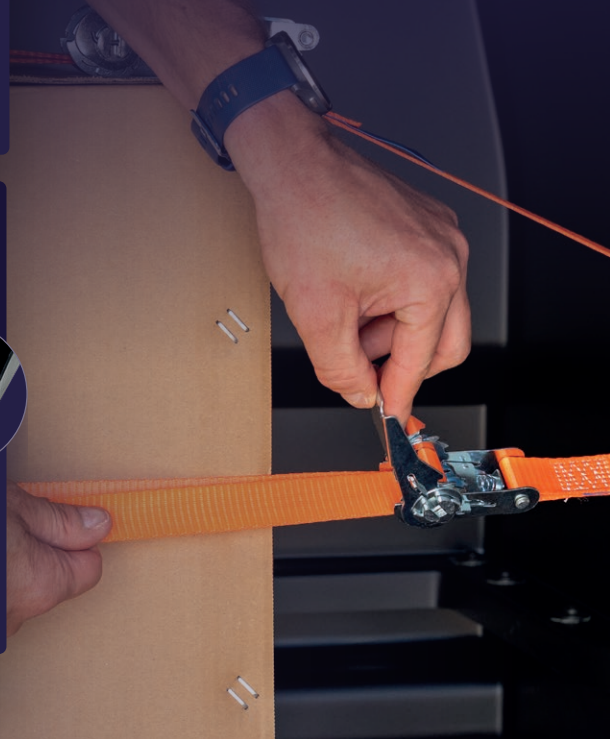

Practical accessories, such as hooks, storage bins and motorcycle hooks, to expand your system.

ADAPTABLE TO EVERY LOAD COMPARTMENT

The Moduload system can easily be adapted to different vehicles and loads. With L-track and E-track rails, adjustable cargo bars, lashing straps and cargo nets, users can quickly assemble a solution that meets their needs. All components are designed for intensive use.

Moduload combines rails, anchoring points, accessories and lashing equipment in one flexible system for:

- Vans
- Trailers and utility trailers
- Work vehicles

A SHELF THAT SELLS

A clear, logically organised shelf helps your customers choose more quickly and increases sales per linear metre. With Moduload, we offer a professional presentation that brings clarity, structure and strong brand recognition to the shop floor.

Together, we develop the optimal shelf layout based on **market data, customer behaviour** and **the available space**. The result is a product range that closely matches demand and is presented as a complete concept.

WITH A WELL-DESIGNED PLANOGRAM:

- Customers find what they are looking for more quickly
- More repeat purchases and add-on sales are generated
- Your team has fewer customer questions to answer
- Individual products come together to form one complete concept

STRENGTHEN YOUR PRODUCT RANGE WITH MODULOAD

SUITABLE FOR A WIDE VARIETY OF APPLICATIONS

Ideal for the transport, construction and service sectors, as well as DIY users.

STRONG SALES SUPPORT

We provide product data, instructional videos, planograms and certified quality.

ENCOURAGES REPEAT PURCHASES

Users can continue to expand their modular system. Moduload integrates seamlessly into the wider Konvox range of cargo securing and protection products.

TAILORED ADVICE

Our advisers will be happy to help you with your planogram, product range selection or any product information you may need.
