

KONVOX MODULOAD E O-RING FITTING

GENERAL INFORMATION

For safely and firmly securing heavier loads, the KONVOX Moduload E O-ring fitting 1000 daN offers a powerful and flexible solution within the professional E-track cargo rail system. The robust fitting features a sturdy steel O-ring, has a load capacity of 1000 daN and is suitable for attaching lashing straps, hooks and other suitable fastening materials.

Thanks to the user-friendly, spring-loaded click system, the fitting can be quickly and easily placed, locked and repositioned at the desired position in the Moduload E rail. Ideal for professional load securing in trucks, semi-trailers and larger trailers, but also suitable for vans and commercial vehicles.

SAFETY AND APPLICATION OPTIONS

Before use, always check that the KONVOX fitting is correctly and securely mounted and shows no visible damage or deformation. Use the anchor point only for fastening and securing loads with suitable lashing straps and hooks from the KONVOX Moduload E system. Make sure the applied load matches the permitted load capacity of the anchor point and the tensioning equipment used. Avoid overloading and loading from an unsuitable pulling direction.

ADDITIONAL INFORMATION

Almost all KONVOX Moduload products are available in full boxes, outer cartons and on complete pallets. Each packaging unit has its own EAN number for easy identification, ordering and logistics processing.
