

KONVOX MODULOAD E SURFACE-MOUNTED CARGO RAIL

GENERAL INFORMATION

The KONVOX Moduload E surface-mounted cargo rail offers a strong and flexible solution for professional securing of medium to heavy loads in trucks, semi-trailers, trailers and commercial vehicles. The robust E-track rail is available in lengths of 1524 and 3048 mm and can be mounted both horizontally and vertically on a suitable wall or floor.

Thanks to the rectangular mounting slots, compatible Moduload E fittings, lashing straps and accessories can be quickly and easily clicked into place and repositioned at different positions. This lets you effortlessly adapt the load securing to changing transport requirements.

SAFETY AND APPLICATION OPTIONS

Before use, check the Konvox Moduload E cargo rail for damage, deformation and correct mounting. Mount the rail only on a sufficiently strong and suitable surface using appropriate fasteners. Regularly check that the fastenings are secure. Use only compatible E-track fittings and suitable lashing straps. Make sure the fittings are correctly locked and the load is evenly secured. Never exceed the permitted load capacity of the rail, fittings and mounting structure. Do not use the rail if there are cracks, deformations, damaged mounting holes or loose fastenings.

ADDITIONAL INFORMATION

Almost all KONVOX Moduload products are available in full boxes, outer cartons and on complete pallets. Each packaging unit has its own EAN number for easy identification, ordering and logistics processing.
