

KONVOX MODULOAD L SINGLE LASHING POINT

GENERAL INFORMATION

The KONVOX single lashing point is the ideal solution where fitting longer mounting rails is not possible or not desired. The compact anchor point offers a practical and flexible way to attach lashing straps and hooks from the KONVOX Moduload L system.

Because it is mounted individually, the anchor point can be fitted exactly where extra securing is needed. This makes the system particularly suitable for use in work vans, trailers and campervans, among others, where mounting space is often limited.

AVAILABILITY

Description	Item number	EAN code

DIMENSIONS

SAFETY AND APPLICATION OPTIONS

Before use, always check that the KONVOX single lashing point is correctly and securely mounted and shows no visible damage or deformation. Use the anchor point only for fastening and securing loads with suitable lashing straps and hooks from the KONVOX Moduload L system. Make sure the applied load matches the permitted load capacity of the anchor point and the tensioning equipment used. Avoid overloading and loading from an unsuitable pulling direction.

ADDITIONAL INFORMATION

Almost all KONVOX Moduload products are available in full boxes, outer cartons and on complete pallets. Each packaging unit has its own EAN number for easy identification, ordering and logistics processing.
